

Berry Saddle Saw

Model B-SS-1

The Berry Saddle Saw Model B-SS-1 Provides an even and precise cut to maximize your yield and produce a high level of quality cut quarters.

WATER:	1/8" CONNECTION
ELECTRICITY:	2—1 H.P. ELECTRIC MOTORS
CAPACITY:	DETERMINED BY LINE SPEED
HEIGHT:	APPROXIMATELY 42" DETERMINED BY SHACKLE SETUP AND BIRD SIZE
WIDTH:	APPROXIMATELY 25"
LENGTH:	APPROXIMATELY 37"

Construction:

The Berry Plumbing & Equipment **Saddle Saw Model B-SS-1** is constructed of stainless steel, aluminum and UHMW for durability and easy cleanup.

Operation:

Back halves enter the **Model B-SS-1 Saddle Saw** via the overhead conveyor. Here they encounter a unique system of guide bars which align the saddle of the bird perfectly so that each cut is even and straight.

Maintenance:

Smooth rounded surfaces and easily removable covers make thorough clean up easy for the cleaning personnel. The circular blade should be kept sharpened.

The specifications as stated herein are the most current at the time of publication. However, consistent with our standard of continual product development, we reserve the right to change the design without notice or obligation to modify any equipment previously sold or delivered.
