

Model B-PH-HDH

US Patent # 6283848 B1

The Berry Plumbing and Equipment **Model B-PH-HDH, Heavy Duty Paw Harvester**, features brushes that aggressively clean the foot while perfectly positioning it in the shackle for a consistently straight cut at whatever length you require. The **B-PH-HDH** features easy adjust handles, easy remove brush flanges and a guide bar that snaps free if a shackle gets caught.

Berry Paw Harvester Heavy Duty Hydraulic

POWER:	Hydraulic Blade Motor: 5.5 G.P.M. Hydraulic Brush Motor: 15 G.P.M.
AIR:	3/8" PUSH ON @ 80 PSI
PRESSURE:	950 psi
CAPACITY:	Determined by the line speed
POSITION IN LINE:	Last on the kill line
FACING:	Determined facing the back of the bird (Available in a Left or Right hand model machine)
HEIGHT:	Approximately 63" (Determined by bird size and shackle setup)
WIDTH:	Approximately 80"
DEPTH:	Approximately 64"

Construction:

The Berry Plumbing & Equipment **Model B-PH-HDH** is constructed entirely of stainless steel for durability and easy cleanup.

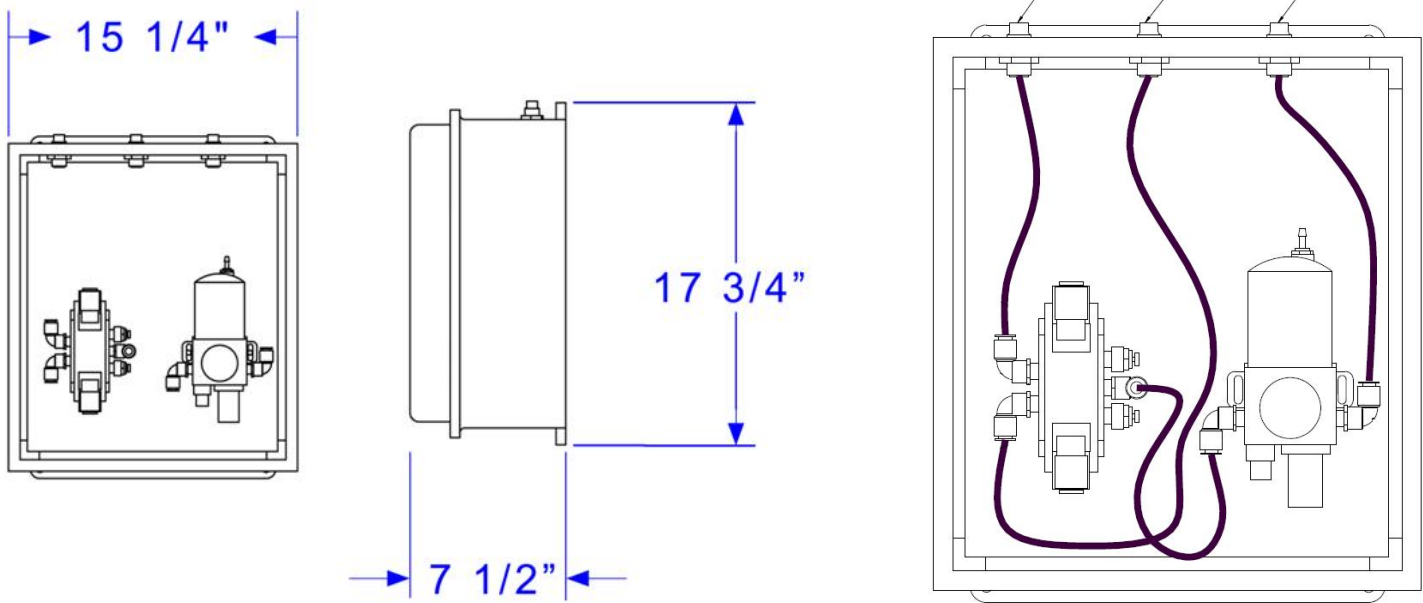

Operation:

Automatically fed, hydraulically powered, and belt driven; the Berry Paw Harvester matches the speed of your overhead conveyor. The Paw Harvester's blade then cleanly cuts and separates the paw from the knuckle, allowing for easy processing of any size paws.

Maintenance:

Berry Air Control Box - Model PRS-ACB1

The Berry Air Control Box, Model PRS-ACB1 operates the Reject Chute on the Paw Harvester.
This Reject Chute is designed to reject the unwanted paws whenever the push button
is pressed on the Berry Paw Recovery System.

Requirements:

Qty of One

3/8" Air Drop @ 80 psi to supply air from plant supply to the Air Control Box.

The specifications as stated herein are the most current at the time of publication. However, consistent with our standard of continual product development, we reserve the right to change the design without notice or obligation to modify any equipment previously sold or delivered. 01/17/2012
